MATERNITY BENEFITS 2026

MATERNITY BENEFITS

Maternity benefits are available on all options. In-hospital maternity-related treatment is covered on all options and out-of-hospital treatment is covered on the ProPinnacle, ProSecure Plus, ProSecure, ProActive Plus (Premium and Savvy) options. The ProPinnacle (Premium and Savvy) options offers unlimited in-hospital cover in private wards, ProSecure Plus (Premium and Savvy) offers unlimited in-hospital cover and private wards for maternity (post-delivery).

MATERNITY PROGRAMME

The Maternity programme on the ProSecure Plus and ProSecure (Premium and Savvy) options covers expectant moms for maternity consultations, ultra-sound scans, lactation and nutrition consultations and a Nuchal Translucency Non-Invasive Pre-Natal Test. These benefits are all paid from risk and not from the day-to-day benefit, which leaves more funds in the overall annual day-to-day limit.

The Maternity programme on the ProActive Plus and ProActive Plus Savvy options covers expectant moms for ante-natal consultations, 2 2D scans, 2 GP or paediatrician consultations and maternity pathology tests. These benefits are paid from risk and not from the day-to-day limit.
