

HEALING@HOME

In these changing times, healthcare costs are rising for both medical schemes and members, whilst members are becoming more discerning about how and where they receive medical care. Experience and research have demonstrated that specific medical conditions can be safely managed in members' homes, leading to improved recovery and satisfaction rates while significantly reducing healthcare costs.

Profmed has partnered with **Quoro Medical** to provide **Healing@Home** services, a revolutionary solution that brings quality healthcare to your doorstep, allowing you to recover in the comfort of your home while maintaining clinical oversight and monitoring.

CONDITIONS THAT MAY BE TREATED AT HOME INCLUDE, BUT ARE NOT LIMITED TO:

COMPLICATED URINARY TRACT INFECTION

ACUTE EXACERBATION OF COPD

ACUTE EXACERBATION OF CONGESTIVE CARDIAC FAILURE

POST MYOCARDIAL INFARCTION

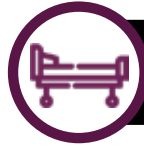

STABLE PULMONARY EMBOLISM

EPISTAXIS

ACUTE GASTROENTERITIS (DEHYDRATION)

POST-OPERATIVE MANAGEMENT

SYNCOPE/COLLAPSE

COMMUNITY ACQUIRED/ NOSOCOMIAL PNEUMONIA

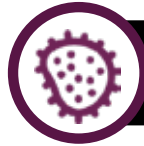

TRANSIENT ISCHAEMIC ATTACK

DEEP VEIN THROMBOSIS

ACUTE EXACERBATION OF ASTHMA

SKIN AND SOFT TISSUE INFECTIONS

DIABETES MELLITUS AND COMPLICATIONS

Healing@Home is a safe, more cost-effective solution for patients usually admitted to a general ward, which improves patient satisfaction rates and aids in improving healing.

Healing@Home is currently available to members within an 80km radius of the following areas:

Gauteng (Bryanston)

Durban (Waterfall/ Hillcrest), excluding Pietermaritzburg.

Cape Town (Pinelands)

Bloemfontein (Mangaung)

Gqeberha (Kragga Kamma)

Port Alfred, and surrounding towns

As the referring healthcare professional, you can claim a once-off referral fee of R552.30 by using the tariff code **QM0190**.

The application process is quick and seamless once both you - the treating provider, and the member, have provided consent.

Complete the application form available at <https://www.quoromedical.co.za/patient-form/> and the Scheme will manage the rest. Members will receive continuous remote vital signs monitoring, daily virtual visits, an in-person visit by a clinician for the first 3 days at home, short-term oxygen, medication, appropriate wound care and pathology tests, if required.

These services will be covered from the Risk benefit in the same way as an in-hospital stay.

Choose the Healing@Home option through this innovative, patient-centered, value-based offering.
