

ABOUT PROSELECT & PROSELECT SAVVY 2024

The ProSelect options provide hospital benefits and **day-to-day dentistry** benefits at affordable rates for young aspiring professionals.

ProSelect and ProSelect Savvy are hospital network options that require you to make use of specific hospitals for hospitalisation. The hospitals on the network list have been carefully selected to ensure we provide members access to the most efficient hospitals, with the best clinical outcomes.

The ProSelect hospital network differs from the ProSelect Savvy network. Members on the ProSelect option are required to make use of hospitals on the ProSelect hospital network for hospitalisation. Members on the ProSelect Savvy option are required to use hospitals on the Savvy hospital network for hospitalisation.

Voluntary use of a non-network hospital will result in a co-payment of R12 500.

Visit www.profmed.co.za for the ProSelect and Savvy network hospital lists.

PREVENTATIVE CARE FOR EARLY DETECTION OF HIGH RISK DISEASES.

What is covered?

As part of our commitment to your wellbeing, this benefit encourages the early detection of the most frequently diagnosed high-risk diseases. Early treatment reduces the risk of complications and is more likely to secure a better prognosis for the patient. This benefit provides cover for specified pathology and radiology investigations, and vaccinations. One consultation is paid from the Preventative Care benefit, thereafter will be subject to the available day-to-day benefits.

All relevant diagnostic procedures and tests are paid from the risk benefit in terms of the rules and protocols.

PROFMED TUMS²TOTS. BABY & TODDLER PROGRAMME

Expectant moms, moms with babies up to 12 months and moms with toddlers aged 1 to 3 years can register on the programme via the Profmed App. This programme is here to support you throughout this exciting journey.
