

PPS GAP COVER 2027

THE PROBLEM

Surgeons, anaesthetists and other specialists may charge more than the amount covered by your medical scheme. When that happens, the difference can become your responsibility, a self-payment gap.

THE SOLUTION

Medical scheme members can insure themselves against medical expense shortfalls with PPS Gap Cover.

PPS Gap Cover is not a medical scheme or a substitute for medical scheme and the cover is not the same as a medical scheme. It's a health insurance policy that provides cover for medical expense shortfalls that arise when your medical scheme only covers your medical treatment and procedure costs in part.

The table below contains some of the procedures that frequently result in medical expense shortfalls. These are accompanied by actual Rand amount examples paid by PPS Gap Cover in the past year (Source: 2025/2026 Zestlife claims register).

Examples of procedures frequently not covered in full by medical schemes and the medical expense shortfall claims paid by Gap Cover in 2025/2026.

The shortfall covered is the difference between the admitting medical practitioner's consultation fees for pre- and post in-hospital surgery and the amount payable or paid by your medical scheme.

To qualify for this benefit:

- The medical scheme must pay a portion of the admitting medical practitioner fees from risk or savings benefit.
- The admitting medical practitioner consultation must occur within a period of 30 days before or after surgery.
